Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims, the cited prior arts fail to teach a first logic gate having a first input terminal coupled to the first LUT input terminal, a second input terminal coupled to the first memory cell, as recited in claim 1; the cited prior arts also fail to teach programmable means, coupled to the select terminals of the multiplexer circuit, for enabling exactly one of the programmable paths in response to a first programmed value and enabling a plurality of the programmable paths in response to a second programmed value, as recited in claim 14; the cited prior arts also fail to teach the first and second signal paths differ from each other in at least a portion of the signal paths, as recited in claims 28 and 51; the cited prior arts also fail to teach utilizing a signal on the second signal line to select two of four signals comprising four stored values, as recited in claims 38 and 52; and the cited prior arts also fail to teach increasing, when at least one of the signal lines controlling the LUT is unused in the PLD design, the speed of the LUT by providing more than one of the stored values, as recited in claim 53.

2. Claims 1-61 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
